

Complex Methods for Innovation and Engagement

Who Should Attend

For leaders at all levels who wish to engage staff, colleagues and consumers in processes that enable innovation while addressing complex issues.

[Register Online](#)

Going Beyond Business As Usual

This experiential program enables participants to use complex tools and methods to:

- maximise collaborative engagement
- embrace diversity of perspectives and experience
- provide the basis for action

The workshop combines theory and practice, using methods that are in the public arena and do not require additional payment to be able to apply.

Participants will learn to:

- Develop and sustain the relationships that embrace diversity and share risk taking using the Partnership Brokers Association framework
- Understand and apply the principles of complex facilitation to maximise participant and collaboration Use the Cynefin© complexity framework and associated methods for collaborative sensemaking, planning, decision making, innovation, strategy development and monitoring impact
- Apply narrative research tools for data collection
- Design ways of monitoring changes in complex environments

Facilitators

Marcia Dwonczyk and Viv Read combine expertise and practical experience in complex facilitation, partnering, community engagement and innovation.

Included Extras

Tuition includes workshop, workshop materials plus one day follow up support as:

- executive coaching or
- project design consulting services or
- co-facilitation services or
